## Work Experience

### Open Source Lab

May 2011 – Current

The mission of the Oregon State University Open Source Lab is to accelerate the growth of high-impact open source software projects worldwide through professional hosting services, custom development and industry expertise provided by the staff and students of Oregon State University.

- General systems administration tasks, working to keep multiple sites and projects online with minimal disturbance, maximum performance and scalability.

### Intel Learning Company

October 2010 – Current

- Worked on optimizing MeeGo OS for a custom handheld hardware platform designed to help teach students programming and hardware in their classes.

### College of Science Information Network

January 2011 – May 2011

- Provided tech support to teachers and students on the science domain at Oregon State University.

### The Mac Store

November 2009 – January 2011

- Worked primarily on the sales floor addressing customer needs.
- Fixed hardware in service as needed.
- Solved software problems working with and without the customer.
- Upgrading computers and did general diagnostics.

### Hand Print Tiles

June 2008 – February 2012

- Updated website functionality and design.
- Complete routine monthly updates and modifications.

### Free Geek ([freegeek.org](http://freegeek.org))

July 2008 – September 2008

Free Geek's mission is to recycle technology and provide access to computers, the internet, education and job skills in exchange for community service.

- Worked building computers.
- Executed diagnostics on old hardware for sorting.
- Taught new volunteers through the program.
